EDUCATION

University of Florida, College of Liberal Arts & Sciences

August 2019 - December 2022

Bachelor of Arts in Criminology

Gainesville, FL

New College of Florida

August 2024 - May 2027

Bachelor of Science in Computer Science and Mathematics

Sarasota, FL

WORK EXPERIENCE

New College of Florida

Research Assistant

October 2024

Currently working as a Machine Learning Research Assistant under Dr. Rohan Loveland. The focus of our research is in the area of anomaly detection algorithms. Using computer vision techniques, it is our goal to allow for anomaly detection in real-time using live data streams with as little input from the user as possible.

As part of my role, I traveled to Silicon Valley during the Summer of 2025 to continue my research with Dr. Loveland. Over the span of two months, I engineered and benchmarked multiple anomaly-detection pipelines, improved real-time performance on live video streams, and collaborated with Dr. Loveland on preparing our preliminary results for publication in collaboration with two other students.

Teaching Assistant (Mathematics)

February 2025

Served as a Teaching Assistant for Calculus I under Dr. Christopher Kottke. Responsibilities included leading a Friday recitation period, where I assisted students in solving problems assigned by their professor, as well as hosting exam preparation and review sessions.

Teaching Assistant (Computer Science)

February 2025

Currently working as a Teaching Assistant for Intermediate Python under Dr. David Gillman. Responsibilities include examining student code, providing narrative evaluations of their code, hosting office hours to guide students through assigned programs, and holding lectures upon request.

Knack Peer Tutor

February 2025

Approved by New College of Florida to serve as a peer tutor in the fields of Mathematics and Computer Science. Tutoring experience lies primarily in the areas of Calculus and Python.

LEADERSHIP & INVOLVEMENT

University of Florida, ThriveIFC

August 2021

Ambassador

Gainesville, FL

Represented the Kappa Sigma Fraternity as an ambassador to the University of Florida's Thrive IFC initiative.

- Attended seminars on mental health and the warning signs of mental illness, received training to serve as a bridge between struggling members and professional assistance.
- Provided the Kappa Sigma Fraternity with information pertaining to mental health, including available support systems on campus, in an effort to eliminate the stigma surrounding men's mental health.

ADDITIONAL INFORMATION

NYS Seal of Biliteracy in Spanish and English, Recipient
